

Evaluation of Degree Project (30-60 credits) Department of Biology

Name:	
Titel:	
Subject:	Credits:

The following table is a support for the evaluation and final grading. For each category, 1-5 points are awarded (half points may also be used). Note that scores 1 - 2.5 are used when the student does not completely fulfil the requirements for "Pass" (score 3) in a category. See further descriptions in the "Guidelines for evaluation of Degree Projects (30-60 cr)".

The Process (primarily evaluated by the supervisor)	Grade 1-5
1. Independence of the student.	
2. Ability to carry out experiments/laboratory work and/or theoretical work, incl. documentation of the work.	
3. Ability to structure and write the essay.	
4. Processing and interpreting data.	

The Product (primarily evaluated by the examiners)	Grade 1-5
1. Organisation of the essay.	
2. Dataprocessing and presentation of the results.	
3. Discussion of results and ability to put the work into a larger perspective.	
4. Ability to present and discuss the work during the examination.	

Total: _____
(maximum 40 p)

Guideline: 60% (24p) = Pass, 80% (32p) = Pass with Distinction

Additional comments to the grading:

Final grade (mark one):		
Fail	Pass	Pass w. Distinction

Date: _____

Examiner: _____
