Course analysis BINP11, Bioinformatics and Sequence Analysis, Autumn 2018

Course leader: Claes von Wachenfeldt
Other teachers: Dag Ahrén, Staffan Bensch, Helena Persson, Markus Ringnér, Hanna Sigeman, Torbjörn Säll,
Number of students: 19 registered students

Grades: 3 Fail (U), 4 Pass (G), 12 Pass w distinction (VG).

Evaluation

I. Summary of the course evaluation
Number of answers: 13
Short summary of the result: Overall the students were pleased with the course (grade 3.5). The students appreciated the broad introduction to the subject, but some suggested improvement regarding exercises and the work load.

II. Comments from the teachers team
The teachers on the course considered that the course was successful which is also reflected in the number of students that passed the course with distinction.

III. Evaluation of changes made since the previous course
After the previous course we changed teacher for one part and this was perceived positively by the students.

IV. Suggested changes for the next course
As Bioinformatics is a rapidly evolving subject the content of the course needs to be updated over time.
