Course analysis BINP28, DNA Sequencing Informatics I, spring 2019

Course leader: Björn Canbäck
Other teachers: Anna Runemark, Jakob Willforss, Dag Ahrén

Number of students: 14 registered students

Grades: 2 Fail (U), 3 Pass (G), 9 Pass w distinction (VG).

Evaluation

I. Summary of the course evaluation
   Number of answers: 13
   Short summary of the result: Overall the students were pleased with the course (grade 4.4). The students especially appreciated the hands-on teaching, teachers and assistants and course material. One student found the course too easy.

II. Comments from the teachers team
   Improvements in length and scope of the variant calling exercise should be implemented.

III. Evaluation of changes made since the previous course
   After the previous course a new projector was installed on both teachers’ and students’ request.

IV. Suggested changes for the next course
   An evaluation of current content will be made. There may be new areas that should be incorporated.
