Course analysis BINP29, DNA Sequencing Informatics II, spring 2019

Course leader: Björn Canbäck
Other teachers: Aaron Scott, Jakob Willforss, Dag Ahrén

Number of students: 14 registered students

Grades: 2 Fail (U), 4 Pass (G), 8 Pass w distinction (VG).

Evaluation

I. Summary of the course evaluation
   Number of answers: 2
   Short summary of the result: Too few respondents to make any conclusions. Please, have a look at last year's evaluation.

II. Comments from the teachers team
   Some exercises should be scheduled with less time, while some more difficult exercises should increase in time.

III. Evaluation of changes made since the previous course
   After the previous course a new projector was installed on both teachers’ and students’ request.

IV. Suggested changes for the next course
   An evaluation of current content will be made. There may be new areas that should be incorporated.
