Evaluation

I. Summary of the course evaluation
   Number of answers: 3
   Short summary of the result: Overall the students were very pleased with the course (grade 4) and appreciated the mixture between theory and practice. However, few responded so difficult to assess.

II. Comments from the teachers team
   The teachers on the course considered that the relatively low number of students made it more difficult to complete all field parts.

III. Evaluation of changes made since the previous course
   Some lectures were altered, but it was not possible to evaluate from responses.

IV. Suggested changes for the next course
   Due to the loss of the Aneboda Field station, we will do daily excursions to local lakes and streams instead.
